- (i) Scotland (ii) England (iii) Northern Ireland

(d) Which country would have the highest percentage of aged people in 2035?

- (i) Whales (ii) England (iii) Northern Ireland

(e) Choose the correct statement basing on the information provided in the above bar chart.

(i) There would have been no population aged 65 and over in the countries of the U. K. in 2035.

(ii) There would have been a great decrease in population aged 65 and over in all countries of the U.K. by 2035.

(iii) There would have been incensement in population of aged 65 and over in all countries in the U. K. by 2035.

2) Read the following passage carefully and answer the questions that follow: 5×1=5

Sprouts are one of the most complete and nutritional of all foods tested. Sprouts are real life vitamins, minerals, proteins, and enzymes. Their nutritional value was discovered by the Chinese thousands of years ago. Recently, in the USA, numerous scientific studies suggest the importance of sprouts in a healthy diet. As an example, a sprouted Mung Bean has a carbohydrate content of a melon, vitamin A of a lemon, thiamin of an avocado, riboflavin of a dry apple, niacin of a banana, and ascorbic acid of a loganberry.

Sprouts are predigested food. They have a higher biological efficiency value than whole seeds, raw or cooked. Less food is required, yet more nutrients reach the blood and cells. The sprouting process under the action of light, creates chlorophyll. Chlorophyll has been shown to be effective in overcoming protein deficiency anemia.

Sprouts also have a regenerating effect on the human body because of their high concentration of RNA, DNA, protein and essential nutrients which can be found only in living cells.

Now, answer the following questions.

a) Why should we eat sprouts ?

- b) Why do sprouts have a regenerating effect on the human body?
- c) Importance of sprouts in a healthy diet stated recently by
- (i) America (ii) India (iii) China.
- d) Sprouts are
- (i) predigested food (ii) hard food (iii) indigestive food
- e) Choose the correct statement from the following sentences.
- (i) USA had recognized the importance of the sprouts long ago.
- (ii) Sprouts help us to overcome anemia.
- (iii) Chinese are not considering sprouts as their diet.

3) Read the following passage carefully. 5 M

A lovely little girl was holding two apples with both hands.

Her mum came in and softly asked her little daughter with a smile: "my sweetie, could you give your mum one of your two apples?"

The girl looked up at her mum for some seconds, then she suddenly took a quick bite on one apple, and then quickly on the other.

The mum felt the smile on her face freeze. She tried hard not to reveal her disappointment.

Then the little girl handed one of her bitten apples to her mum, and said: mummy, here you are. This is the sweeter one.

Now, arrange the following jumbled sentences in a meaningful order.

- (a) One day the daughter had two apples in her both hands.
- (b) The daughter offered the sweeter apple to her mother.
- (c) But the mother misunderstood and was disappointed.
- (d) The daughter took quick bites on both the apples to know which apple was sweeter.

(e) The mother asked for one of them.

4. (a) 2016 summer has been a scorcher from the beginning with insufficient monsoon. It resonated with peak of summer where mercury chases to break its own previous records as it creeps to settle away above 40 degree Celsius. As a result there is reduction in reservoir levels, severe heat, depleting ground water and unavailability of drinking water.

Now write a letter to your friend who is in Ooty about the summer 2016. 5 M

(OR)
